EXPERIENCE

CO FOUNDER AND DIRECTOR OF VOCATE TRAINING

Aug 2019 - Present

We develop experiences and careers that students and employers love. We combine expert led learning experiences with recruitment placement specialists to enable apprentices and current staff members to accelerate their careers in their chosen fields.

I have a unique skill set that allows me to transfer those skills into different areas. I have a huge network of people that I can reach out to after almost 20 years of working in a recruitment environment (14 years in my own business) I have helped build 3 companies from scratch and continue to own and work in two of them. My goal is now to build a successful Apprentice Training Provider with my 20 plus year experience in sales and recruitment. We have recently passed our 3rd Ofsted inspection and 2nd ESFA inspection of which I played a key role in making sure we were ready for the inspection and managing that process.

Since September 2019, I have been the Lead Tutor for our Recruitment Resourcer Apprenticeships and manage our employers and apprentices through the apprentice sign up phase through to End Point Assessment.

I am also an Enterprise Advisor for St Andrew School in Worthing, which means I work alongside their Careers lead and help to advise

OBJECTIVE

If someone offers you a fantastic opportunity but you don't know how to do it – just accept it and work out how to do it later! (Richard Branson)

SKILLS

Recruitment, Mentoring, Tutoring, Business Advice

the students on the career opportunities available to them after they leave school. We have recently delivered a employment session to 50 Year 11's at St Andrews and I am working with Coast to Capital to deliver a mock interviews work shop and to host workplace visits with Hove Park School in the next few weeks.

My main role now requires me to build awareness to schools, employers and potential apprentices about the apprenticeship opportunities available, delivering workshops and online support along with supporting their workplace placements.

CO FOUNDER AND DIRECTOR OF INVOLVE SELECTION

June 2009 – Present

A founding member of Involve Selection recruiting mid to senior executives in the Engineering Sector. At one point we placed 70% of all Tunnelling construction Project Managers on Crossrail. I have recruited into most of the major civil engineering projects in the UK, eg Heathrow and Gatwick Expansion, Crossrail, Thames Tideway, London Cable Tunnels and supported Southern Water in their Amp 6 programme. I pride myself in being able to build working relationships with people from all walks of life.

Work experience prior to Involve Selection.
